Sir:

INFORMATION DISCLOSURE STATEMENT UNDER 37 C.F.R. § 1.97(d)

Pursuant to 37 C.F.R. §§ 1.56 and 1.97(d), Applicant brings to the attention of the Examiner the documents on the attached listing. This Information Disclosure Statement is being filed after a Notice of Allowance but before payment of the Issue Fee and is accompanied by a fee of \$180.00 as specified under § 1.17(p) and a statement as specified under § 1.97(e).

The information in this Information Disclosure Statement was included with an Information Disclosure Statement filed on March 25, 2009. Unknown to Applicant at that time, however, a Notice of Allowance had already been issued five days prior. Thus, to have these references properly considered, Applicant resubmits this Information Disclosure Statement with the requisite fee and statement.

Based on reasonable inquiry, no document listed in this Information Disclosure Statement was cited in a communication from a foreign patent office in a counterpart foreign application, and no document listed in this Information Disclosure Statement was known to any individual designated in 37 C.F.R. § 1.56(c) more than three months prior to the filing date of this Information Disclosure Statement.

Copies of the U.S. patent publications are not enclosed.

Applicant respectfully requests that the Examiner consider the listed documents and indicate that they were considered by making appropriate notations on the attached form.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claims in the application and Applicant determines that the cited documents do not constitute "prior art" under United States law, Applicant reserves the right to present to the U.S. Patent Office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.

REQUEST TO CORRECT CLERICAL ERRORS ON PTO FORM SB-08

On February 24, 2009, Applicant timely filed an Information Disclosure Statement and PTO Form SB-08. Copies of these documents, together with the date stamped receipt card, are attached.

In order to correct clerical errors, Applicant submits herewith a corrected PTO Form SB-08. In this PTO Form SB-08, the cites for International Search Reports on page 6 of Applicant's February 24, 2009 submission now correctly show dates and the number of pages of each International Search Report. In addition, two other references, "Grid Computing Q&A with Benny Souder..." and the reference authored by Li, both on page 6 of this PTO Form SB-08, are corrected to show dates and the number of pages

of each reference. No new references are cited in this corrected PTO Form SB-08 information.

Copies of the non-patent literature documents are not included, having been submitted previously with Applicant's Information Disclosure Statement of February 24, 2009. This paper should not be considered a new Information Disclosure Statement. The corrections presented herein are merely corrections to a timely filed Information Disclosure Statement.

During a telephone call on March 27, 2009, Examiner Kiss stated that he would consider Applicant's request to correct the clerical errors. Accordingly, Applicant respectfully requests that the Examiner also consider the listed documents, which were timely submitted prior to the Notice of Allowance, and indicate that they were considered by making appropriate notations on the attached form.

This submission does not represent that a search has been made or that no better art exists and does not constitute an admission that each or all of the listed documents are material or constitute "prior art." If the Examiner applies any of the documents as prior art against any claims in the application and Applicant determines that the cited documents do not constitute "prior art" under United States law, Applicant reserves the right to present to the office the relevant facts and law regarding the appropriate status of such documents.

Applicant further reserves the right to take appropriate action to establish the patentability of the disclosed invention over the listed documents, should one or more of the documents be applied against the claims of the present application.
